Peritoneal Equilibration Test (Standard, Fast, Modified)

PET, Standard

Specimens Plasma,
Dialysis Fluid Sample at Hours 0, 2 and 4

White Top - 0 Hour Dwell

Green Top - 2 Hour Plasma

White Top - 2 Hour Dwell

White Top - 4 Hour Dwell

PET, Fast

Specimens Plasma,
Dialysis Fluid Sample at Hour 4

Green Top - Plasma

White Top - 4 Hour Dwell

PET, Modified

Similar to the standard PET, but uses 4.25% glucose solution

Specimens Plasma,
Dialysis Fluid Sample at Hours 0, 1, 2 and 4

White Top - 0 Hour Dwell

White Top - 1 Hour Dwell

White Top - 2 Hour Dwell

White Top - 4 Hour Dwell

Fluid Overnight Dwell

Kinetic modeling software may require a Fluid Overnight Dwell result
in addition to PET, Standard results

Specimens Long overnight dwell; 8-12 Hours in length

White Top - Overnight
